

Aliso WD Board Meeting Update  
April 25, 2017

Delta Mendota Basin Update

22 GSAs

- Multiple GSPs
- 1<sup>st</sup> basin-wide meeting –May 8<sup>th</sup>, 2017
  - Coordination agreement
    - Point of contact and responsibilities of each GSA
    - Same data and methodologies for subbasin;
      - Groundwater elevation data
      - Water budget
      - Sustainable yield and undesirable results
    - Coordinated data management system and submittals
  - Positioning for GSP grant

GSP update

- Our scope is 2 phased
    - Basin Setting – Water Budget
      - Data was received from all but 2 landowners. Good information on crops, but not on water use
      - Will rely on large assumptions to obtain sustainable yield value
        - Large margin of error
        - Less defensible
        - Meters
      - Will complete in one month
      - Recommend
        - Develop monitoring plan
        - Submit Statement of Diversions for flood water\
- Projects – See Primer

Grants

- USBR - WaterSMART Grants
  - Water and Energy Efficiency Grants
  - Small-Scale Water Efficiency Grants (May 15, 2017) – \$75,000
- NRCS - EQIP Grant
- DWR
  - IRWM Grants (May 8, 2017 meeting)
  - GSP Grants
  - Water Use Efficiency grants
  - Local Groundwater Assistance
